SALES PERFORMANCE DASHBOARD ANALYSIS REPORT(TABLEAU)

DHIMAN CHAKRABORTY

1. Executive Summary

This Tableau dashboard provides a comprehensive overview of sales performance across the United States, focusing on Sales, Profit, Quantity Sold, Geographic Distribution, Customer Segments, and Regional Manager Performance. The business demonstrates positive year-over-year growth across all key metrics, indicating strong market performance and effective sales strategies.

---

2. KPI Performance Overview

KPI	Current Value	YoY Growth
Total Sales	**$733K**	**+20.36%**
Total Profit	**$93K**	**+14.24%**
Total Quantity Sold	**12K Units**	**+26.83%**

Key Findings

- Sales increased by **20.36%**, indicating strong revenue growth.
- Profit grew by **14.24%**, but at a slower pace than sales.
- Quantity sold increased by **26.83%**, showing rising customer demand.
- Since quantity growth exceeds profit growth, margins may be under pressure due to discounts, promotions, or higher operational costs.

---

3. Monthly Sales Trend Analysis

Consumer Segment

- Highest-performing segment.
- Strong upward trend throughout the year.
- Peak demand observed in:
  - September
  - November
  - December
- December records approximately **1.02K units**, the highest monthly volume.

Corporate Segment

- Consistent growth pattern.
- Strong increase during Q3 and Q4.
- Peak volume reaches approximately **0.53K units**.

Home Office Segment

- Lowest contributor among all segments.
- Stable but relatively slow growth.
- Maximum monthly volume reaches approximately **0.38K units**.

Business Insight

Consumer customers are the primary revenue drivers and should remain the core focus of marketing campaigns and inventory planning.

---

4. Geographic Sales Performance

The dashboard's state-level distribution reveals significant sales concentration in a few states.

Top Performing States

- California
- New York

These states exhibit:

- High sales volumes
- Strong profit contribution
- Large customer base

Underperforming States

Several central and mountain states show:

- Low sales activity
- Limited profit generation
- Smaller market penetration

Business Insight

Revenue is heavily concentrated in a few key markets, increasing geographic dependency risk.

---

5. Sales vs Profit Distribution

The dashboard compares states against national averages.

Above Average States

- Concentrated around:
    - California
    - New York
    - Washington
    - Other coastal markets

Below Average States

- Many central U.S. states fall below average sales and profit performance.

Observation

Some states achieve strong sales but relatively lower profit performance, indicating:

- High discounting
- Increased logistics costs
- Product mix issues

---

6. Regional Performance Analysis

Region	Sales
West	$250.13K
East	$213.08K
Central	$147.10K
South	$122.91K

Ranking

1. West
2. East
3. Central

4. South

Key Insight

- West contributes approximately **34% of total sales**.
- South contributes the least and presents the largest growth opportunity.

---

7. Manager Performance Analysis

Manager	Sales
Sadie Pawthorne	$250.13K
Chuck Magee	$213.08K
Roxanne Rodriguez	$147.10K
Fred Suzuki	$122.91K

Top Performer

Sadie Pawthorne

- Highest revenue contribution.
- Responsible for the strongest-performing region.

Improvement Opportunity

Fred Suzuki

- Lowest regional sales.
- Requires deeper analysis regarding:
  - Territory size
  - Market potential
  - Customer acquisition strategy

---

8. Key Business Insights

Insight 1

Sales are growing strongly (+20%), showing increasing market demand.

Insight 2

Quantity growth (+26.83%) is significantly higher than profit growth (+14.24%), suggesting margin compression.

Insight 3

Consumer customers generate the majority of sales and show the strongest seasonal growth.

Insight 4

California and New York dominate sales performance, indicating heavy reliance on a small number of states.

Insight 5

The West region contributes the largest share of revenue and should remain a strategic priority.

---

9. Business Recommendations

Recommendation 1: Improve Profit Margins

- Analyze discount structures.
- Reduce excessive promotional spending.
- Focus on higher-margin products.

Recommendation 2: Expand in Underperforming Regions

- Launch targeted campaigns in South and Central regions.
- Strengthen local partnerships and distribution.

Recommendation 3: Invest More in Consumer Segment

- Introduce loyalty programs.
- Increase personalized marketing.
- Expand product offerings.

Recommendation 4: Replicate Top Region Strategies

- Study West region best practices.
- Apply successful sales tactics to lower-performing regions.

Recommendation 5: Seasonal Planning

- Increase inventory before Q4.

- Prepare marketing campaigns for peak demand months (Sep–Dec).

Final Conclusion

The business is experiencing healthy growth, with **Sales reaching $733K, Profit $93K, and Quantity Sold 12K units**. The **Consumer segment, West region, California, and New York** are the primary growth drivers. While revenue growth is strong, profit growth is lagging, highlighting the need to improve margins. Expanding market penetration in underperforming regions and optimizing pricing strategies can further accelerate profitability and sustainable growth
